| November 1, 2017 | Marty Sereno  
San Diego State University | It's Maps All the Way Up (and Down)                                  |                                     |
| November 29, 2017 | Yingxi Lin  
Massachusetts Institute of Technology (MIT) | Learning Induced Synaptic Modulation During Contextual Memory Formation |                                     |
| January 10, 2018   | Richard Granger  
Dartmouth | Principles of Brain Design                                             |                                     |
| January 17, 2018   | Nadine Gaab  
Harvard Medical School | The typical and atypical reading brain: How a neurobiological framework of reading development can inform educational practice and policy |                                     |
| January 31, 2018   | Geoff Schoenbaum  
National Institute on Drug Abuse (NIDA) | Tests of two key predictions of the hypothesis that dopamine transients serve as a cached-value error-signaling system for learning |                                     |
| February 21, 2018  | Trevor Robbins  
Cambridge University | Compulsivity, addiction and OCD: Aberrant learning and fronto-striatal dysregulation |                                     |
| March 7, 2018  | Sara Mednick  
UC Irvine | How Do Heart-Brain Interactions during Sleep Contribute to Memory Consolidation |                                     |
| March 14, 2018  | John W. Krakauer  
Johns Hopkins University | Motor planning and motor skill in health and disease                  |                                     |
| March 21, 2018  | Bjoern Brems  
University of Regensburg, Germany | The evolutionary conserved neurobiology of operant learning             |                                     |
| March 28, 2018  | Pablo Jerog  
IDIBAPS & Celfex  
Inst, Barcelona, Spain | Searching for the hippocampal neural activity that encodes memory formation and recall |                                     |
| *April 17, 2018  | Raymond Kesner  
The University of Utah | A memory based process analysis of the dorsal and ventral dentate gyrus | Click here for Webcast (only viewable during time of event) |
| *April 17, 2018  | Philip Burnet  
Oxford University | Modulating brain function with prebiotics                              |                                     |
| May 2, 2018  | Tom Carmichael  
UCLA | Molecular Memory Systems in Neural Repair after Stroke                 |                                     |
| May 30, 2018  | Mari-Jones  
Ohio State University | Time and how we use it                                                 |                                     |
| June 6, 2018  | Nicholas Turk-Browne  
Yale University | Rethinking memory systems for statistical learning                     |                                     |
| June 20, 2018  | Ted Abel  
Iowa Neuroscience Institute | TBD                                                                    |                                     |

Research, training and translation efforts of the Temporal Dynamics of Learning Center are supported by National Science Foundation grant SMA 1041755.
